

# THE OFFICIAL FRONT SIGHT DRY PRACTICE APP

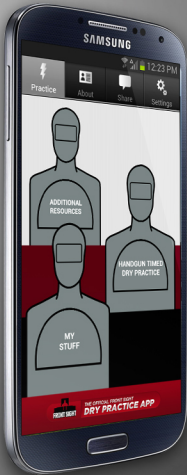

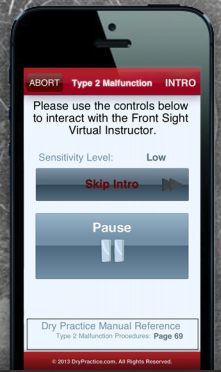

WAIT FOR THE SIGNAL TO START YOUR DRY PRACTICE

PRACTICE YOUR 5 COUNT PRESENTATION, MALFUNCTIONS, TACTICAL RELOADS, AND EMERGENCY RELOADS

YELL OUT OR TAP ANYWHERE TO CONTINUE DRILLS

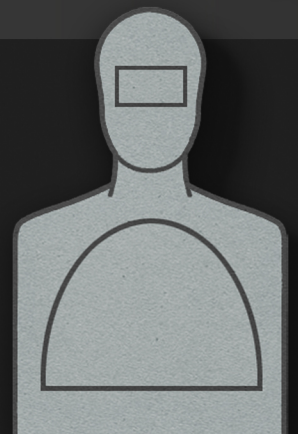

## What is the Front Sight Dry Practice App?

The Dry Practice App is a mobile app that places a voice controlled "Front Sight instructor" into your mobile device. On the firing line at a Front Sight Handgun Course, Front Sight's Range Masters provide verbal instructions for the student to follow; the Dry Practice App works the same way. The Dry Practice App waits for your voice command to continue between each drill. Because users can proceed at their own pace, they each receive a customized experience. For example, if you are slow with your type 3 malfunction clearance, the app won't leave you behind. It will wait for you to verbally tell it to continue.

As an additional benefit of the "continue on verbal command" feature, you get to keep your hands free to manipulate your weapon, just like you would at Front Sight.

## About the Front Sight Dry Practice App

The Dry Practice App was created by Front Sight Students who have been attending courses for over 10 years. With feedback from Front Sight's Senior Range Masters, the Dry Practice App has become incredibly valuable and entertaining. The Dry Practice App has all of the test times for Front Sight's Handgun Skills Test. So while you're practicing, you will also know if you're ready to "ace" the Test with the grade of "Distinguished Graduate". A "DG" on this Test qualifies you to move on to Front Sight's more intermediate and advanced handgun courses.

Two Day Defensive Handgun Course

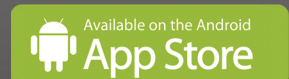

**FREE**  
INCLUDED IN  
PURCHASE

## 2-DAY DEFENSIVE HANDGUN COURSE CERTIFICATE

\*Must be 16 years old or older to participate

## Cut the Cost of Ammunition

Save money on ammunition costs by Dry Practicing more! With the high cost of handgun ammunition, and its limited availability, dry practicing with the Front Sight Dry Practice App is the economical way to keep your handgun skills in top shape.

A few sessions with the Dry Practice app will easily save you \$100 in ammunition, while providing the most beneficial training you can have, without attending a real Front Sight course.
